*How can we help?*

Our program provides a **Plan of Safe Care** that identifies your overall needs. A **Safe Care Coordinator** will make referrals and link you to peer support (people who are living in recovery) and services.

*The Purpose of a Plan of Safe Care is to:*

- Focus on you and the health, safety and development of your baby
- Work with you to identify your overall needs
- Make referrals for you and your family

*Douglas County Resources*
